

# TAUPO OVERNIGHT RUN

*By Roy Steiner*

The 20 th dawned a bright sunny day as we made our way to the Good George Cafe in Rotorua. After coffee tea & muffins we departed for our drive to Taupo, 12 left turns and a couple of right to make sure our blinkers still worked that way. We were travelling behind a bit when I noticed the brake lights on two xf Jags suddenly come on and pulled to the left as they went past Bruce road ( not to mention any names Andrew) all and all it was a nice run.

After lunch we went to the Barry Hoffman personal car display (and some went shopping )all the cars were warranted and registered ranging from the very small Mini Cooper S to much larger, and a very nice range of classic cars.

From there we returned to our rooms to freshen up in time for a few beers and nibbles then on to a lovely dinner. Thanks to a tip off one of our members left his lights on and would had a very flat battery( Russel).

Sunday morning a bunch of us had breakfast at the hotel and watched a very pour display of rugby by the All Blacks against a very fired up French team after which we all headed home in our own time. Thanks to Noel Harris and his team for a gr8t weekend.
